Make Your Wedding Yours

Allow me to show you some of the ways in which I can make your evening bespoke, elegant and fun. I will listen to you and what you want for your wedding and play the right music for you and your guests. You can be assured that you will be hiring a friendly, helpful and reliable professional DJ who goes above and beyond as I am passionate about the success of your wedding. I welcome lots of communication as nothing is too much.

Amazing. Played everything from our list plus more. Even took his own photos!

Hired Adam for our wedding. Didn't let us down at all. All our guests had such an amazing night. I'd definitely recommend to other people!

The Music and You

I encourage couples to take notes when they hear a song that makes them want to dance and remember a time together. Part of the music at your wedding reception should tell a story and bring back memories, as well as being fun and make guests want to dance.

I have created a service on my website- <https://keenmds.co.uk/> to enable you and your guests to request songs for the evening's playlist from the moment you book. I will also share this playlist with you one month beforehand to ensure there isn't any music which you don't want to be played. Learning what sort of music, you dislike is just as important as the music you do like. I have a vast database of music ranging from the 1920s to today's charts, and I ensure good quality of sound by not relying on the internet.

From Enquiry to the big day

From your enquiry, I will take some details to provide an initial quote. If accepted, I will then arrange an initial call or video chat. This gives us the opportunity to get to know each other, to discuss your vision of your big day, your first dance, the theme, your music tastes and for me to gather practical information on your other suppliers and the running of the evening.

One month before your wedding, we will meet in person at the venue to go over the details. From the moment of booking, I welcome any questions no matter how trivial you think it maybe. I want to be part of making this the best day for you.

On the day, I will arrive 1 hour before and liaise with the wedding co-ordinator to start setting up and be ready to play music from the moment your evening guests arrive. I will also come to see you and to say hello and whether you need anything. When you are ready, I will announce the cutting of the cake and your first dance. I will continue to take requests throughout the evening and the happy couple are welcome behind the DJ booth to have some fun with the music.

Announcements

I will welcome your guests at the beginning of the night, announce when it is time for everyone to join you around the cake and welcome you both to the dance floor for your first dance. And, if you are feeling a bit nervous, I can announce for your guests to join you part way through.

Adam made our wedding! He had EVERYONE dancing and the dance floor was full all night long. Absolute gent, really friendly and went above and beyond to help make our wedding day special. He was so accommodating and didn't charge us any more for additional speakers/microphones or time like other djs had quoted us. He was so reasonably priced and we will be sad to not have our regular zoom calls with him because he is such a top guy! Thank you so so much Adam for everything you did for us. We really appreciated it xx

Packages and Suppliers

I don't offer packages as it is my belief that you are hiring my expertise, experience and knowledge of the industry. I would not want to push you to a higher or lower package than you need. I will use my knowledge and experience to ensure there is enough sound and lighting for your wedding reception, and discuss directly with your venue for their requirements ahead of the big day.

I will need to contact your venue to ensure they have my insurance and PAT testing certificates.

I will also speak to your photographer to see what lighting they do and don't want for your first dance, after all, you pay a lot of money for these pictures.

If you're not sure of who to hire, I have a number of suppliers that I am happy to recommend from catering to videographers, all of whom I have worked with before.

Those Little Additions

- I will take pictures and videos throughout the night and send them to you.
- I can bring along four battery powered uplighters to set the ambiance for the room.
- Help with the ceremony and wedding breakfast music.
- LED foam sticks
- Dry Ice Machine (depending on the Venue).

Become the DJ

Why not make your wedding more and become the DJ, you can both send me 3 songs each before the wedding. I will premix the music then on the night you can come behind the DJ booth a look like you are DJ'ing - it's a great photo opportunity and a fantastic memory for both you and your guests.

The Look To Suit Your Day

Adam was a fantastic DJ. He was extremely responsive and friendly! Music on our wedding night was fantastic and our guests and us had the most fun! Thanks to Adam for everything!

Hannah Kelly

DJ Keen was absolutely fab at our wedding, he was so accommodating, had brilliant communication in the lead up to our wedding and was always happy to answer any questions at all. He was also more than happy to take requests of songs off our guests in the night. Would definitely recommend :)

Emma Gorman

FAQ's

- **Do you take requests**

I welcome requests from you and your guests, as I want you all dancing.

- **If I hire you will you be the DJ?**

You can also rest assured that when you hire me you will get me as your DJ.

- **What happens if you are not well?**

Although I am the DJ you will get I do work in a circle of DJ's, I would pass one of them your booking form so they have all the details and you would receive communication from me to advise of the change. This is a last resort as I always want to be part of your day.

- **Will you make announcements?**

I Will announce your cutting of the cake, the first dance and any other announcements that you would like.

- **How many weddings have you played?**

I am privileged to DJ around 50 weddings a year.

- **Do you provide a contract?**

I believe the contract is important so you know who I am and what I am doing for you, as this covers both myself and you.

- **How do you get your music?**

I have all of my music on a hard drive which is backed up as you cannot rely on the internet to buffer in time to play the music.

- **Do you offer meetings?**

I think meetings are important for you to get to know me and vice verse and I can then get a feel for your vision of your wedding.

- **What music do you bring with you?**

I have a big database of music ranging from the 1920's through to todays chart. I have played music from cheesy pop to heavy metal as I will read your crowd on the night to gauge what music is working.

- **Are you insured?**

I am fully insured and PAT tested, I can pass these on to your venue.
